

What makes K&R Mason different from other haulage companies, is the people who work for us, so we thought it would be good to tell you more about the people at the heart of the business.

Kieran is the founder and director of our business. He has been interested in transport from a small age. Kieran started the business in 2014, before moving the business to UPN, with TPN following in 2015 and they now deliver 350+ pallets a day!

Although he is the Managing Director, Kieran has only recently stepped away from daily route planning and office operations. He is now focusing on moving the business forward and expanding their warehousing division, increasing pallet input.

Kieran has created a real family feel within the business, with a team of long-standing staff members who work closely together to ensure things run efficiently and accurately for their customers.

Kieran says 'Being part of two leading pallet networks enables us to provide a good, reliable service to our customers and this enables to steadily grow our business year on year'.
